

Take Back Your Life!® - Group

What is Take Back Your Life!®?

The Take Back Your Life! group seminar enables Microsoft Outlook users to drive sustainable change, make measurable improvements to their productivity and focus, and increase performance by blending theory, tools, and behavioral change. This program is unique in that MPS provides practical application that supports participants in creating an immediately implementable approach to using Microsoft Outlook to manage their daily workload.

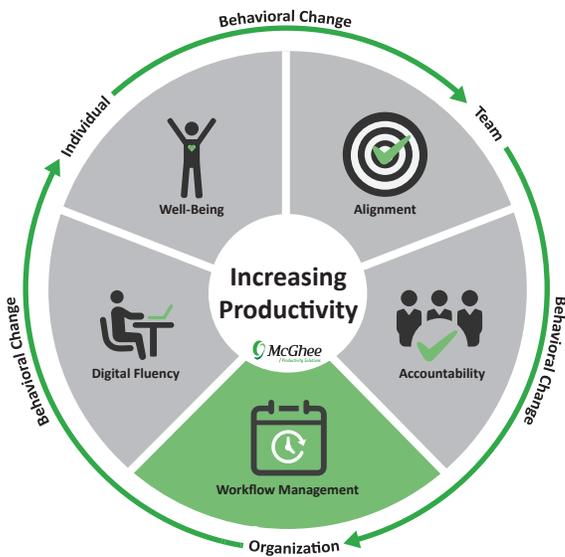

A pre-call is conducted prior to the 8-hour seminar to assess roles, objectives and appropriate customization. Interviews can be conducted with colleagues prior to the session to ensure participants are getting an outside-look on how to be their most productive. The seminar takes place in a classroom or conference room with PC's, or laptops, preferably connected to the server so participants can work real-time. The Take Back Your Life! group seminar can be condensed into a 4.5-hour in-person or virtual session.
