## Driving Productivity through MS Teams®

Prepared exclusively for: Fortune 500 Consulting company

TEAM & INDIVIDUAL TIME  
MANAGEMENT

ACCOUNTABILITY & STRATEGIC  
PLANNING

MEASURABLE GOALS

BEHAVIOR MODIFICATION  
& CHANGE MANAGEMENT

RESULTS

## Purpose and Background

---

This report provides information regarding changes the group experienced in overall productivity, and behaviors related to key Driving Productivity through MS Teams!® methodologies and adoption of Microsoft Teams tools.

The pre-survey was administered during the in-person training session and the post-survey was sent via email 4 weeks later. Their responses were used to generate the results outlined in this report.

Many survey questions ranged from 1-5 ('not at all' to 'all the time') while some questions were open-ended and the actual number was input by the participant. The results can be used to celebrate positive behavioral changes and explore ways to further success as well as consider areas for improvement.

## Key Results

---

### Time Management

- **50% increase** in overall productivity in MS Teams.
- **140% increase** in hours scheduled to complete actions you've identified in Teams.
- **170% increase** in creating Conversations that are easily searchable.
- **13% increase** in using Teams consistently to collaborate on projects

*Participants report a 38% increase in using Team Channels that produce desired outcomes that support team goals.*

---

## MS Teams Utilization

- **233% increase** in using the format icon to “Add a Subject” for new conversation from 1.2 to 4.0.
- **220% increase** to filter @ mentions and replies using the Activity Tab from 1.0 to 3.2.
- **25% increase** in using @mention to notify others of actions required from 3.2 to 4.0.
- Participants report using “Save this Message” **60% more** often to track actionable items
- Participants report using the File Tab in Teams to store collaborative documents 144% more often after the training.
- **200% increase** in using OneNote to share meeting notes
- **100% Increase** in using MS Planner to track milestones and deliverables.

## Continuing Education

---

The group made some great changes in the 4 weeks between Pre-Post Productivity Survey data collection. To sustain these changes and further increase the ROI from the initial training, the following recommendations are suggested based on your team’s specific survey results.

- Consider establishing standardized expectations around the use of Teams.
- Optimizing Teams program to optimize Teams as tool to clarify goals, build a planning system and
- To provide additional productivity solutions, consider having the team participate in the Personal Productivity: Take Back Your Life session
- Given varying expectations observed in the room, consider a team alignment or team accountability program to increase partnership.
